November 7, 2022

To the Board of Trustees and the Citizens of the Henderson District Public Libraries:

We are pleased to present Henderson District Public Libraries' Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2022. This report contains the financial statements and other financial information and statistical data that provide complete and full disclosure of all material aspects of the Henderson District Public Libraries. The financial statements in this ACFR conform to generally accepted accounting principles (GAAP) as applicable to governmental entities.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that has been established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Henderson Libraries' financial statements have been audited by HintonBurdick CPAs & Advisors, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of Henderson Libraries for the fiscal year ended June 30, 2022 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that Henderson Libraries' financial statements for fiscal year ended June 30, 2022 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Henderson Libraries' MD&A can be found immediately following the report of the independent auditors.

Profile of Henderson District Public Libraries

Henderson Libraries' history begins in 1943 when a petition was formed to create the Henderson School Public Library. The petition was approved by the Board of County Commissioners, Clark County, Nevada on January 22, 1944, with a rate of ten cents for ad valorem property taxes per annum fixed for the expenses. In an attempt to overhaul educational laws, the Henderson School Public Library became a county library district in 1956 during a special session of the Nevada Legislature. At that time, statutes providing for public libraries based on school district boundaries were replaced and county library districts were automatically established with identical boundaries. Since that time, library district boundaries have been adjusted three times. The latest adjustment, in April 2005, made the library district boundaries contiguous with the City of Henderson boundaries.

Henderson Libraries was established and operates as an independent governmental unit under authority of NRS 379. Henderson Libraries is governed by a seven-member Board of Trustees. Five trustees are appointed to four-year terms by the Board of County Commissioners of Clark County, Nevada. The remaining two trustees are appointed to three-year terms by the City of Henderson Council. The Board of Trustees is responsible for establishing policy and for the overall operations of the District.

The mission of Henderson Libraries is to imagine possiblities, discover opportunities and connect with our community. This mission is achieved through the operation of four full service libraries and one limited service library located throughout the city.

Henderson Libraries is required to adopt a final budget on or before June 1st of each year. This annual budget serves as the foundation for Henderson Libraries' financial planning and control. The budget is prepared by fund and function but management is authorized to transfer resources between functions or funds if the amounts do not exceed total appropriations for the year and the Board of Trustees is notified at the next regular meeting.

Factors Affecting Financial Conditions

Local Economy - According to UNLV's Center for Business and Economic Research (CBER), Clark County displayed generally favorable signs in its local economic activity. Seasonally adjusted employment added 4,800 jobs in May. Total Harry Reid International Airport passengers experienced a strong pick-up, up by 7.5% from last month, nearing pre-pandemic levels. May visitor volume continued its recovery with a robust gain of 1.7% month-over-month. May gaming revenues increased by 7.1% from last year and April taxable sales also rose by 13.4% year-over-year. May residential permits, however, experienced a year-over-year drop of 17.9% amid higher mortgage rates.

Long-term Financial Planning

Long range financial planning is vital in prioritizing implementation of strategic plan initiatives as well as the capital needs of Henderson Libraries. State projections indicate increased property tax valuations will continue in 2023 and beyond. Management strives to balance increasing expenditures and capital needs with this projected revenue flow. A 5-year projection model is used to aid management in determining short-term budgeting for operations and prioritizing long term capital needs.

Through conservative and sound stewardship of resources, Henderson Libraries has managed to maintain a higher ending fund balance, higher than the 5% - 10% ratio of ending fund balance to general fund expenditures, which is considered a healthy financial cushion.

Major Initiatives

In fiscal year 2022, Henderson Libraries expanded partnerships, grew our physical presence, and continued to support the community's pandemic response. Through an expansion of our partnership with Workforce Connections, residents in Henderson now have access to more support for job seekers, as well as access to new resources for business owners. We took occupancy of our new West Henderson Library which added a fifth library to our system. The library opened to the public in July 2022. And, we distributed over 13,000 free at-home COVID-19 test kits in the community. Henderson Libraries continues to seek out opportunities to serve our community needs.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its annual comprehensive financial report for the fiscal year ended June 30, 2021. This was the twenty-second consecutive year that Henderson Libraries has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The report preparation of the Annual Financial Report on a timely basis could not have been accomplished without the efficient and dedicated services of the entire management staff, Finance Department staff and the staff of the independent auditors for Henderson Libraries, HintonBurdick CPAs & Advisors.

Thank you, the Board of Trustees, for your continued interest and support in planning and conducting the financial operations of the Henderson District Public Libraries in a responsible and progressive manner.

Cordially,

Independent Auditor's Report

To the Board of Trustees Henderson District Public Libraries Henderson, Nevada

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Henderson District Public Libraries (the District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2022, and the respective changes in financial position, and the respective budgetary comparison for the General Fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year after the date that the financial statements are issued or when applicable, one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance; and therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements. In performing an audit in accordance with GAAS, we:

Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the proportionate share of the net pension liability, contributions, schedules related to other post-employment benefits, and notes to required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The individual major and nonmajor fund budgetary comparison schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the individual major and nonmajor fund budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information, as listed in the table of contents, comprises the introductory section and statistical section, but does not include the financial statements and our auditors' report thereon. Our opinion on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report. Based on the work performed, we did not find any uncorrected material misstatements of the other information.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 7, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering District's internal control over financial reporting and compliance.

HintonBurdick, PLLC

Mesquite, Nevada November 7, 2022

This page left blank intentionally.

As management of the Henderson District Public Libraries, we offer readers of the Henderson Libraries' financial statements this narrative overview and analysis of the financial activities of Henderson Libraries for the fiscal year ended June 30, 2022. This should be read in conjuction with the transmittal letter in the Introduction Section and Henderson Libraries' financial statement following this section.

Financial Highlights

- The assets and deferred outflows of resources exceeded Henderson Libraries' liabilities and deferred inflows of resources at the end of fiscal year 2022 by \$13,239,810 (net position).
- Henderson Libraries' total net position increased by \$2,325,588. See the section on Government-Wide Financial Analysis for details.
- At the end of fiscal year 2022, Henderson Libraries' governmental funds had combined fund balances of \$10,393,685, an increase of \$2,158,866 from the previous year. Approximately 0.2%, or \$22,595, of ending fund balances is nonspendable, 1.8%, or \$187,055, is restricted for a specific purpose by external sources, 62.2%, or \$6,465,254, is assigned by management for a specific purpose, and 35.8%, or \$3,718,781, is available for spending at Henderson Libraries' discretion.
- As of June 30, 2022, fund balance in the General Fund, excluding nonspendable fund balance, was \$5,390,381 or 60.7% of General Fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Henderson Libraries' basic financial statements. Henderson Libraries' basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements themselves.

Government-Wide Financial Statements - The government-wide financial statements are designed to provide readers with a broad overview of Henderson Libraries' finances in a manner similar to a private-sector business.

The statement of net position presents information on all of Henderson Libraries' assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Henderson Libraries is improving or deteriorating.

The statement of activities presents information showing how Henderson Libraries' net position changed during the most recent fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements present the governmental activities of Henderson Libraries, which are principally supported by ad valorem property taxes and intergovernmental revenues.

The government-wide financial statements can be found in the "Basic Financial Statements" section of this report.

Fund Financial Statements - A fund is a self-balancing set of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Henderson Libraries uses fund accounting to demonstrate legal compliance and to aid in financial management. All of the funds of Henderson Libraries are categorized as governmental funds. Henderson Libraries does not currently maintain any proprietary or fiduciary funds.

Governmental funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the governmentwide financial statements, governmental fund financial statements use the modified accrual basis of accounting, which focuses on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Henderson Libraries maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balance for the General Fund and the Capital Construction Fund, which are considered major funds, and the Contributions and Grants Fund, which is considered a nonmajor fund.

Henderson Libraries adopts an annual appropriated budget for all governmental funds. A budgetary comparison for Henderson Libraries' General Fund has been provided as a component of the basic financial statements to demonstrate compliance with this budget. Budget comparisons for the other funds are provided elsewhere in the report.

The fund financial statements can be found in the "Basic Financial Statements" section of this report.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes can be found in the "Basic Financial Statements" section of this report.

Required Supplementary Information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplemental information concerning Henderson Libraries' changes, proportionate share and actuarially determined contribution information related to Henderson Libraries' pension and OPEB benefits provided to Henderson Libraries' employees.

This information can be found in the "Required Supplementary Information" section of this report.

Other Information -The individual fund schedules can be found in the "Governmental Funds" section of this report.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. At June 30, 2022, Henderson Libraries is reporting net position of \$13,239,810. The following table provides a summary of Henderson Libraries' net position for the years ended June 30, 2022 and 2021.

Henderson Libraries Net Position

	Governmental Activities				
		<u>2022</u> <u>2021</u>			
				(Restated)	
Assets:					
Current and other assets	\$	11,127,814	\$	8,951,365	
Capital Assets		14,500,815		14,044,323	
Total Assets		25,628,629		22,995,688	
Deferred outflow of resources		3,088,486		1,362,755	
Liabilities:					
Current liabilities		674,598		675,911	
Long-term liabilities		9,277,885		10,502,541	
Total liabilities		9,952,483		11,178,452	
Deferred inflow of resources		5,524,822		2,265,769	
Net position:					
Net investment in capital assets		13,662,390		13,984,702	
Restricted by grants and donors		187,055		220,559	
Unrestricted		(609,635)		(3,290,039)	
Total net position	\$	13,239,810	\$	10,914,222	

Current and other assets increased in governmental activities by \$2,176,449 from the prior year.

Long-term liabilities, which consists of leases, compensated abesnces and postemployment benefit obligations decreased \$1,224,656 from the previous year. Primary changes include a decrease of \$2,288,123 in Henderson Libraries' pension liability, an increase of \$838,425 in lease liabilities for the West Henderson Library building lease, and an increase of \$254,513 in the net OPEB liability due to the increase in Henderson Libraries' share of the state's other postemployment benefits healthcare plan liability.

The largest portion of Henderson Libraries' net position, \$13,662,390, reflects its investment in capital assets less any related debt used to acquire those assets that is still outstanding. Capital assets consist of land, buildings, furniture and equipment, land improvements, lease improvements, library materials, right-to-use leased equipment, and vehicles. These assets are used to provide services to the patrons of Henderson Libraries and are not available for future spending. Although Henderson Libraries' investment in capital assets is reported net of related debt, it should be noted that the resources used to repay the debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of Henderson Libraries' net position, \$187,055 reflects resources that are subject to external restrictions on how they may be used. As of the end of the current year, Henderson Libraries' unrestricted net position was a deficit balance of \$609,635. This deficit is caused by the approximate \$7.5 million in post-employment liabilities for Henderson Libraries' pension plans (\$4.7 million) and postemployment benefit plans for retiree healthcare (\$2.8 million).

Henderson Libraries' Net Position June 30, 2021 and 2022

Henderson Libraries' overall net position increased by \$2,325,588 from the prior fiscal year. The reasons for this overal increase are discussed in the following section for governmental activities.

Henderson Libraries Changes in Net Position

	Governmental Activities				
	<u>2022</u> <u>2021</u>				
				(Restated)	
Revenues:					
Program Revenues:					
Charges for services	\$	83,616	\$	22,513	
Operating grants and contributions		167,987		135,247	
Capital grants and contributions		149,882		37,504	
General Revenues:					
Ad valorem taxes		7,370,913		6,731,289	
Consolidated taxes		3,289,123		2,707,724	
Unrestricted investment earnings/(loss)		(22,845)		9,746	
Total revenues		11,038,676		9,644,023	
Expenses:					
Cultural and recreation		8,708,291		9,382,958	
Interest on leases		4,797		-	
Total expenses		8,713,088		9,382,958	
Increase/(decrease) in net position		2,325,588		261,065	
Net position, beginning of year		10,914,222		10,653,157	
Net position, end of year	\$	13,239,810	\$	10,914,222	

Governmental Activities - Governmental activities increased Henderson Libraries' net position by \$2,325,588, or 21.3%, during the current fiscal year. Key elements of this increase are as follows:

- Charges for services increased by \$61,103, or 271.4%. This increase was due to the full restoration of library services and increased patronage as we emerged from the Coronavirus pandemic.
- Operating grants and contributions increased by \$32,740, or 24.2%, and capital grants and contributions increased by \$112,378, or 299.6%. These changes are due to increased grant opportunites through the American Recovery Plan Act and increased contributions through Friends of Henderson Libraries' book sales.
- Ad valorem property taxes increased by \$639,624 or 9.5%, while consolidated taxes increased by \$581,399, or 21.5%. The increase in ad valorem property taxes is due to an increase in assessed value and new property coming onto the tax rolls. The increase in consolidated taxes is due to increased spending as our ecomony recovers from the pandemic.
- Unrestricted investment earnings/(loss) decreased by \$32,591, or 334.4.0%. This is due to an unrealized loss incurred when adjusting the investments to their fair market value.
- Expenses decreased by 674,667, or 7.2%. The most significant decrease of \$741,094 was due to a reduction in Henderson Libraries' portion of the net pension expense from the state retirement plan. This decrease was offset by a slight increase in salaries, benefits and operating expenses during the current fiscal year.

As shown by the chart below, revenues generated by Henderson Libraries' programs are not sufficient to cover the costs. Henderson Libraries relies on ad valorem property taxes and consolidated taxes to cover the costs associated with the programs.

Expenses and Program Revenues

Governmental Activities

Financial Analysis of Governmental Funds

As noted earlier, Henderson Libraries uses fund accounting to better ensure and demonstrate compliance with finance-related legal requirements.

The focus of Henderson Libraries' governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing Henderson Libraries' financing requirements. In particular, unassigned fund balance may serve as a useful measure of Henderson Libraries' net resources available for discretionary use as they represent the portion of the fund balance which has not yet been limited to use for a particular purpose by either an external party, Henderson Libraries itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by Henderson Libraries' Board of Trustees.

As of the end of the current fiscal year, Henderson Libraries' governmental funds reported combined ending fund balances of \$10,393,685, an increase of \$2,158,866 from the prior fiscal year. Of the current fiscal year's ending fund balances, \$3,718,781 or 35.8%, constitutes unassigned fund balance and is available for spending at Henderson Libraries' discretion; \$6,465,254, or 62.2%, is assigned by management for specific purposes; \$187,055, or 1.8%, is restricted by external sources; and \$22,595, or .2%, is nonspendable.

General Fund - The General Fund is the chief operating fund of Henderson Libraries. At the end of the current fiscal year, the General Fund had an ending fund balance of \$5,412,976, of which \$3,718,781 was unassigned, \$1,671,600 is assigned for use in next year's operations, and \$22,595 is nonspendable.

The General Fund's fund balance decreased by \$366,426 during the current fiscal year. This decrease in fund balance is primarily due to an increase in a transfer to the Capital Construction Fund which was offset by increases in ad valorem taxes and consolidated taxes attributed to a raising housing market and additional spending resulting from federal relief packages, a decrease in capital outlays, and a slight decrease in services and supplies due to reducing in-person programming.

Capital Construction Fund - The Capital Construction Fund, a major fund, had a fund balance of \$4,655,171, an increase of \$2,541,554 from the previous fiscal year. The primary reason for this increase was a \$3,000,000 transfer from the General Fund to fund future capital improvement projects.

General Fund Budgetary Highlights

The original, final fiscal year 2022 budget was approved May 20, 2021. State regulations require budget controls to be exercised at the function level.

Pursuant to NRS 354.598005(5), the District may transfer appropriations between functions, if such a transfer does not increase the total appropriations for any fiscal year and is not in conflict with other statutory provisions. The District did no such transfer during fiscal year 2022.

The final budget projected ad valorem property taxes and consolidated taxes, which account for 98.9% of the General Fund's total revenue, to be \$7,179,302 and \$2,633,227 respectively. Ad valorem property tax revenue came in at \$7,373,307, a positive variance of \$194,005, or 2.7%. Consolidated tax revenues came in at \$3,289,123, a positive variance of \$655,896 or 24.9%.

Actual expenditures were 95.8% of appropriations, or \$393,384 lower than the final budget. The main areas of savings are summarized below:

- Salaries and wages were \$320,281 below the final budget and employee benefits were \$113,397 below the final budget. These were due to savings associated with vacant positions.
- Services and supplies were \$551,006 below the final budget. This was due to conservative spending practices.
- Capital outlay was \$554,454 higher than the final budget. This was due the leasing of a building for the new West Henderson Library.

Additional information on the District's general fund budget can be found in the "Basic Financial Statements" section of this report.

Capital Assets

At June 30, 2022, Henderson Libraries had \$14,500,815 invested in capital assets (net of accumulated depreciation). This investment in capital assets includes land, buildings, furniture and equipment, land improvements, leasehold improvements, right-to-use leased equipment, library materials, and vehicles. This amount represents a net increase of \$456,492, or 3.3%, from last year. The following table reflects capital assets of Henderson Libraries at June 30, 2022 and 2021.

Henderson Libraries Capital Assets

(net of accumulated depreciation)

	:	June 30, 2022		<u>June 30, 2021</u> (Restated)		
Land	\$	1,406,051	:	\$	1,406,051	
Buildings		9,422,575			9,852,432	
Furniture and equipment		642,721			596,445	
Land improvements		209,969			239,965	
Leasehold improvements		9,753			-	
Right-to-use leased equipment		829,788			60,226	
Library materials		1,931,544			1,889,204	
Vehicles	48,414 -			-		
	\$	14,500,815		\$	14,044,323	

Major capital asset events during the current fiscal year include the following:

• Tablet lending and charging stations were installed at 3 libraries for a cost of \$38,114.

- Capitalized library materials were recorded at a cost of \$962,385, including donated materials totaling \$67,640.
- Furniture and equipment was purchased for the new West Henderson Library at a cost of \$101,430.
- A customized outreach vehicle was purchased with an LSTA grant for a cost of \$52,138.
- A right-to-use leased asset was added for the West Henderson Library building at a cost of \$809,853.
- Depreciation and amortization expenses for the fiscal year was \$1,710,881.

Additional information on Henderson Libraries' capital assets can be found in Notes 1 and 5 to the financial statements in this report.

Long-term Debt

At the end of the current fiscal year, Henderson Libraries had a total long-term obligation of \$838,425 comprised of leases payable, an increase of \$777,804 or 1283.1% This increase is attributable to the lease for the West Henderson Library building.

Per NRS 379.0225, the debt limitation for the District is equal to 10 percent of the total assessed value of all taxable property. The debt limitation currently applicable to June 30, 2021 is \$1,726,807,292.

At the end of the current fiscal year, Henderson Libraries does not have any general obligation bonded debt subject to this legal debt margin.

Additional information on Henderson Libraries' long-term dept can be found in Notes 1 and 6 to the financial statements in this report.

Economic Factors and Next Year's Budgets

The following economic factors currently affect Henderson Libraries and were considered in developing the 2022-2023 fiscal year budget.

- The unemployment rate for Clark County has continued to decrease and is currently 5.7%, which is down 3.9% from last year. The United States national average unemployment rate is 3.6% and the State's average unemployment rate is 5.1%.
- Businesses within Clark County reported taxable sales of \$5.422 billion, a 11.1% increase from the previous year.
- Property within Henderson Libraries' assessment district raised in value to \$17,268,072,921, an increase of \$526,694,363 or 5.0%.

At the end of the current fiscal year, the spendable fund balance in the general fund was \$5,390,381. Henderson Libraries has appropriated \$1,671,600 of this amount for spending in the 2022-2023 fiscal year budget. This action was taken to allow for a transfer of \$3,000,000 to the Capital Construction Fund that will fund future capital projects.

Requests for Information

This financial report is designed to provide its users with a general overview of Henderson Libraries' finances and to show Henderson Libraries' accountability for the money it receives. Any questions, comments or requests for additional financial information should be addressed to Henderson Libraries' Finance Department at 280 South Green Valley Parkway, Henderson, Nevada 89012.

In Fall of 2021, Henderson Libraries began an exciting partnership with the Henderson Silver Knights Hockey team. A branded library card was unveiled at a card sign-up event. The district will be working toward future opportunities to partner with the Knights' organization.

HENDERSON DISTRICT PUBLIC LIBRARIES NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2022

NOTE 1 – Summary of Significant Accounting Policies

Reporting Entity

The Henderson District Public Libraries (Henderson Libraries) was established and operates as an independent governmental unit under authority of Nevada Revised Statutes (NRS) Chapter 379. It is governed by a seven-member Board of Trustees. Five of the Board members are appointed to four-year terms by the Board of County Commissioners of Clark County, Nevada. The other two Board members are appointed to three-year terms by the City of Henderson Council. The Board of Trustees is responsible for establishing policy and overall operations of Henderson Libraries maintained within Henderson Libraries' boundaries. Henderson Libraries currently operates five libraries – James I. Gibson Library, Green Valley Library, Heritage Park Senior Facility Library, Paseo Verde Library, and West Henderson Library.

Governmental Accounting Standards Board (GASB) Statement No. 14, The Financial Reporting Entity, as amended by Statement No. 39, Determining Whether Certain Organizations are Component Units and Statement No. 61, The Financial Reporting Entity: Omnibus, defines the reporting entity as the primary government and those component units for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Financial accountability is defined as the appointment of a voting majority of the organization's governing board, and either the ability of the primary government to impose its will on the organization or the possibility that the organization will provide a financial benefit to or impose a financial burden on the primary government. In addition to financial accountability, component units can be other organizations in which the economic resources received or held by that organization are entirely or almost entirely for the direct benefit of the primary government, the primary government is entitled to or has the ability to otherwise access a majority of the economic resources received or held by that organization and the resources to which the primary government is entitled or has the ability to otherwise access are significant to the primary government. Henderson Libraries is not considered a component unit of any other governmental unit under this criteria.

The Friends of the Henderson Libraries, formed in 2000, and the Henderson Libraries Foundation, formed in 2010, are Nevada Non-Profit Corporations. Both entities were formed for the exclusive purpose of providing aid, support, and assistance in the promotion, growth and improvement of Henderson Libraries. Although Henderson Libraries expects to receive a future financial benefit from both entities, Henderson Libraries is not required to provide financial support to them, does not appoint a voting majority of the members of either Board or have the ability to otherwise control or impose its will on them, does not have immediate access to their resources, and their resources are not significant to Henderson Libraries. Therefore, neither entity is considered to be and is not reported as a component unit of Henderson Libraries. Furthermore, no other entities were determined to be component units of Henderson Libraries.

Government-Wide and Fund Financial Statements

The government-wide financial statements report information on all of the activities of Henderson Libraries. As a general rule, eliminations have been made to minimize the double-counting of internal activities.

HENDERSON DISTRICT PUBLIC LIBRARIES NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2022

Exceptions to this general rule are charges for services between the governmental activities and businesstype activities, of which Henderson Libraries does not perform. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are specifically associated with a function. Program revenues include 1) fees, fines, and charges paid by recipients of goods or services offered by a given program and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The fund financial statements provide information about Henderson Libraries' funds. Funds are classified into three categories: governmental, proprietary and fiduciary. During fiscal year 2022, Henderson Libraries used only the governmental fund category. The emphasis of fund financial statements is on the major governmental funds, which are each displayed in a separate column. The remaining governmental funds are aggregated and reported as nonmajor funds.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

Basis of accounting refers to when revenues and expenditures/expenses are recognized in the accounts and reported in the financial statements. The government-wide financial statements are reported using the *economic resources measurement focus* and *the accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when liabilities are incurred, regardless of the timing of related cash flows. Ad valorem property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current *financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered *measurable* when the amount of the transaction can be determined and *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, Henderson Libraries considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when the related liabilities are incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and other postemployment benefits, are recorded only when payment is due (or when payment is made).

Ad valorem property taxes, consolidated tax revenue (sales taxes, cigarette taxes, motor vehicle privilege taxes and liquor taxes), interest associated with the current fiscal period, and federal, state and local grants are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Charges for services, fines and contributions are not susceptible to accrual because generally they are not measurable until received in cash.
Ad valorem property tax revenue is recognized in the fiscal year in which the taxes become due to the extent they are collected during the fiscal year or soon enough thereafter that they can be used to finance current period expenditures (no later than 60 days after year-end).

Henderson Libraries reports unearned revenue in the fund financial statements. Unearned revenues arise when potential revenue does not meet both the measurable and available criteria for recognition in the current period. Unearned revenues also arise when resources are received by the government before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenues are recognized.

Henderson Libraries classifies and reports the following as major governmental funds:

The **General Fund** is Henderson Libraries' primary operating fund. It accounts for all financial resources and costs associated with library activities, except those that are required to be accounted for in other funds.

The **Capital Construction Fund** is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the improvement, acquisition or construction of capital facilities and other capital assets.

Additionally, Henderson Libraries reports the following nonmajor governmental fund type:

The **Contributions and Grants Special Revenue Fund** is used to account for and report donations and grants that are restricted, committed, or assigned to expenditure for specific purposes generally dictated by the donor or the grant award.

Henderson Libraries has no nongovernmental fund types.

Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

Cash, Cash Equivalents and Investments

Henderson Libraries maintains two checking accounts and invests resources with the State of Nevada Local Government Investment Pool (LGIP). Henderson Libraries pools cash resources of its various funds in order to facilitate the management of cash and maximize investment earning potential. Cash applicable to a particular fund is readily identifiable.

Cash and cash equivalents include currency on hand, demand deposits with banks and other highly liquid investments, with original maturities of three months or less from the date of acquisition, which are readily convertible to cash.

As more fully described in Note 3, state statutes authorize Henderson Libraries to invest in obligations of the U.S. Treasury, certain farm loan bonds, certain securities issued by Nevada local governments, repurchase agreements, banker's acceptances, commercial paper, negotiable certificates of deposit, Local Government Investment Pool, and money market mutual funds. All investments are stated at fair value.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures when consumed rather than when purchased.

Capital Assets

Capital assets are defined as those assets with an initial cost of \$2,500 or more and an estimated useful life of more than one year. Library books and materials purchased throughout the fiscal year are combined together as one item and considered a capital asset. All purchased or constructed capital assets are reported at cost or estimated historical cost. Donated assets are valued at their estimated acquisition value on the date received. Book deletions are computed using the average cost per book, as determined from the purchases over a period of years. Depreciation is calculated using the straight-line method over the following estimated useful lives:

Asset Class	<u>Lives</u>
Buildings	30
Furniture and equipment	5-20
Land improvements	20
Leasehold improvements	5
Library materials	5
Right-to-use leased equipment	5
Vehicles	5-7

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial element, deferred outflows of resources, represents a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. Henderson Libraries has two items that qualify for reporting in the category; deferred pension related items and deferred other post-employment benefits related items. These amounts are deferred and recognized as an outflow of resources in future periods.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future periods and so will not be recognized as an inflow of resources (revenue) until that time. Henderson Libraries has three such items that qualify for reporting in this category. Unavailable revenue from ad valorem property taxes is reported only in the governmental funds balance sheet. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available. In the government-wide financial statements, Henderson Libraries reports deferred amounts related to leases and deferred amounts related to pension and OPEB.

Net Position

For government-wide reporting, the differences between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called net position. Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted.

Net investment in capital assets consists of capital assets, net of accumulated depreciation/ amortization and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.

Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Assets are reported as restricted when constraints are placed on asset use either by external parties or by law through constitutional provisions or enabling legislation.

Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two proceding categories.

Sometimes, Henderson Libraries will fund outlays for a particular purpose from both restricted (e.g., restricted grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is Henderson Libraries' policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Fund Balance

In governmental fund types, the difference between assets and deferred outflows of resources less liabilities and deferred inflow of resources is called "fund balance". Henderson Libraries' governmental funds report the following categories of fund balance, based on the nature of any limitations requiring the use of resources for specific purposes.

Nonspendable fund balance represents the amounts that are either not in a spendable form or are legally or contractually required to be maintained intact.

Restricted fund balance includes amounts that can be spent only for the specific purposes stipulated by external resource providers such as grantors or enabling federal, state, or local legislation. Restrictions may be changed or lifted only with the consent of the resource providers.

Committed fund balance represents amounts that can be used only for a specific purpose determined by the adoption of a resolution committing fund balance for a specific purpose by Henderson Libraries' Board of Trustees prior to the end of the fiscal year. Once adopted, the limitation imposed by the resolution remains in place until the resources have been spent for the specified purpose or the Board of Trustees adopts another resolution to remove or revise the limitation.

Assigned fund balance represents amounts that are intended to be used by Henderson Libraries for specific purposes but do not meet the criteria to be classified as committed. The Board of Trustees, has by formal board action, adopted Henderson Libraries's fund balance policy delegating authority to assign fund balances to the Executive Director. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenues and appropriations in the subsequent year's appropriated budget. Unlike committments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment.

Unassigned fund balance represents the residual amount for the General Fund that is not contained in any other classification. The General Fund is the only fund that can report a positive unassigned fund balance. Additionally, any deficit fund balance within the other governmental fund types is reported as unassigned.

As previously mentioned, sometimes, Henderson Libraries will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is Henderson Libraries' policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance.

<u>Leases</u>

Lessee: Henderson Libraries is a lessee for a noncancellable lease of equipment and a noncancellable building lease. Henderson Libraries recognizes lease liabilities and intangible right-to-use lease assets (lease assets) in the government-wide financial statements. Henderson Libraries recognizes lease liabilities with an initial, individual value of \$5,000 or more.

At the commencement of a lease, Henderson Libraries initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how Henderson Libraries determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- Henderson Libraries uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, Henderson Libraries generally uses the Applicable Federal Rate (AFR) as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.

Henderson Libraries monitors changes in circumstances that would require a remeasurement of its lease sand will remeasure the lease assets and liabilities if certain changes occur that are expected to significantly affect the amount of the lease liabilities.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Lessor: Henderson Libraries is a lessor for a noncancellable lease for a portion of the Paseo Verde Library building. Henderson Libraries recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

At the commencement of a lease, Henderson Libraries initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is revenue over the life of the lease term.

Key estimates and judgments include how Henderson Libraries determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- Henderson Libraries uses the Applicable Federal Rate (AFR) as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

Henderson Libraries monitors changes in circumstances that would require a remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Compensated Absences

It is Henderson Libraries' policy to permit employees to accumulate earned but unused paid time off (PTO), subject to cap limits. All PTO is accrued when incurred in the government-wide financial statements. In governmental funds, the current portion of PTO actually paid or accrued as a result of employees who have terminated, is recorded as a payroll expenditure.

Other Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring Henderson Libraries' OPEB liablity, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expenses, information about the fiduciary net position of Henderson Libraries' OPEB plans (the Plans) and additions to/deductions from the Plans' fiduciary net position have been determined based on annual actuarial reports. Benefit payments are recognized when due and payable in accordance with the benefit terms.

Multiple-Employer Cost-Sharing Defined Benefit Pension Plan

For purposes of measuring Henderson Libraries' net pension liablity, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expenses, information about the pension plan's fiduciary net position of the Public Employees' Retirement System of Nevada (PERS) and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2 – Stewardship, Compliance and Accountability

Budgetary Information

Annual budgets are legally adopted for all funds and use a basis of accounting consistent with GAAP.

Prior to April 15, the Library Board of Trustees submits a tentative budget for the ensuing fiscal year to the Nevada Department of Taxation. The Nevada Department of Taxation notifies the District if the budget is in compliance with the law and appropriate regulations. Public hearings, at which all changes made to the tentative budget are indicated, are conducted no sooner than the third Monday in May and no later than the last day in May. The Board of Trustees adopts the budget prior to June 1 and submits it to the Nevada Department of Taxation for final approval. The revenue classifications and expenditure functions shown in the fund financial statements are those prescribed by the Nevada Department of Taxation.

All revisions to the adopted budget are made a matter of public record by actions of the Board of Trustees. Per Nevada law, Management is authorized to transfer budgeted amounts within functions (in the general fund) or funds if the Board of Trustees is notified during a regular meeting and the action is noted in the official minutes.

Revisions which affect the total fund appropriations or transfers between funds are accomplished through formal Board of Trusteee approval. Various supplemental appropriations were approved for the year to reflect necessary changes in spending and the corresponding additional resources available. State statutes require budgetary control to be exercised at the function level.

Compliance with Nevada Revised Statutes

Henderson District Public Libraries conformed to all significant statutory constraints on its financial administration during this year.

New Accounting Pronouncements

In June 2017, the GASB issued Statement No. 87, *Leases*, effective for financial statements starting with this fiscal year. The objective of this Statement is to better meet the informational needs of financial statement users by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Management has implemented this statement which resulted in a \$395 restatement of the fiscal year 2021 net position.

In May 2020, the GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*, effective for financial statements starting with the fiscal year that ends June 30, 2023. The objective of this Statement is to provide guidance on the accounting and financial reporting for subscription-based information technology arrangements. Management has not yet completed its assessment of this statement.

Management has completed its assessment of all other new, but not yet effective GASB statements and determined that they will not have a material effect on financial position or changes therein.

Tax Abatements

All tax abatement agreement/programs, entered into by the State of Nevada, have been summarized, by type of agreement/program and the gross, accrual basis reduction of Henderson Libraries' taxes for the year ended June 30, 2022 aggregated as follows:

Agreement/program description - NRS 360.753 - Partial abatement of certain taxes imposed on aircraft, components of aircraft and other personal property used for certain purposes related to aircrafts

Amount abated during the year ended June 30, 2022 - \$590

Specific tax being abated - Personal property taxes and/or sales and use taxes

Agreement/program description - NRS 360.754 - Partial abatement of certain taxes on a new or expanded data center

Amount abated during the year ended June 30, 2022 - \$4,905

Specific tax being abated - Personal property taxes and/or sales and use taxes

Agreement/program description - NRS 701A.370 - Partial abatement of certain taxes imposed on renewable energy facilities Amount abated during the year ended June 30, 2022 - \$8,769

Specific tax being abated - Personal property taxes and/or sales and use taxes

Agreement/program description - NRS 374.357 - Abatement for eligible machinery or equipment used by certain new or expanded businesses

Amount abated during the year ended June 30, 2022 - \$3,196

Specific tax being abated - Sales and use taxes

All tax abatement agreement/programs, entered into by Clark County, Nevada, have been summarized, by type of agreement/program and the gross, accrual basis reduction of Henderson Libraries' taxes for the year ended June 30, 2022 aggregated as follows:

Agreement/program description - NRS 361.0687 - Partial abatement of certain taxes imposed on certain new or expanded businesses

Amount abated during the year ended June 30, 2022 - \$23,642

Specific tax being abated - Personal property taxes

Agreement/program description - NRS 361.4724 - Partial abatement of taxes levied on certain residential rental dwellings

Amount abated during the year ended June 30, 2022 - \$21

Specific tax being abated - Personal property taxes

Agreement/program description - NRS 361.484 - Abatement of certain taxes on real or personal property acquired by Federal Government, State, or political subdivision

Amount abated during the year ended June 30, 2022 - \$48,214

Specific tax being abated - Personal property taxes

Agreement/program description - NRS 701A - Energy-related tax incentives (NRS 701A.110 Partial abatement of certain taxes for buildings or structures that meet certain standards under Green Building Rating System, NRS 701A.200 Exemption from certain taxes for qualified energy systems, NRS 701A-210 Exemption from certain property taxes for businesses and facilities using recycled materials)

Amount abated during the year ended June 30, 2022 - \$37,974

Specific tax being abated - Personal property taxes

NOTE 3 - Cash, Cash Equivalents and Investments

The following summarizes Henderson Libraries' cash and investment balances as of June 30, 2022:

Cash on hand	\$ 1,770
Cash in financial institutes	467,891
Investments	 9,890,381
Total cash, cash equivalents, and investments	\$ 10,360,042

Deposits

State statutes govern Henderson Libraries' deposit options. Henderson Libraries monies must be deposited in insured banks, credit unions, or savings and loan associations. Henderson Libraries is authorized to use demand accounts, time accounts and certificates of deposit.

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2022, the recorded amount of Henderson Libraries' deposits were \$467,892 and the bank balances were \$511,597. Of the bank statement balances, \$250,000 was covered by federal depository insurance and the remainder was subject to collateralization by the office of the State Treasurer/Nevada Collateral Pool.

Investments

Henderson Libraries invests through pooling of monies. The pooling of monies is theoretically invested on the whole and not as a combination of monies from each fund belonging to the pool. In this manner, Henderson Libraries' Chief Financial Officer is able in invest the monies at a higher interest rate for a longer period of time. Interest revenue is apportioned annually to each fund in the pool based on the average cash balance of the fund for each month. Henderson Libraries' investment pool is not registered with the Securities and Exchange Commission as an investment company. Investments made by the Chief Financial Officer are regulated by Nevada Revised Statutes (NRS 355.170).

NRS 355.170 sets forth acceptable investments for Nevada local governments. Henderson Libraries has not adopted a formal investment policy that would limit its investment choices or limit its exposure to certain risks beyond that set forth in the statutes.

The following table identifies the investment types and minimum credit ratings authorized for Henderson Librariesby NRS 355.170:

		Maximum	Maximum	Minimu	m Ratings
Authorized Investment Type	Maximum Maturity	Percentage of Portfolio	Investment in One Issuer	S & P	Moody's

Henderson Libraries is a voluntary participant in the State of Nevada Local Government Investment Pool (LGIP), which has regulatory oversight from the Board of Finance of the State of Nevada and is governed by the provisions of State Law (NRS 355.170). The LGIP is not registered with the SEC as an investment company. The fair value of Henderson Libraries' position in the pool is the same as the value of the pool shares. Deposits in the LGIP are not insured or otherwise guaranteed by the State of Nevada, and participants share proportionally in any realized gains or losses on investments.

As of June 30, 2022, Henderson Libraries had the following investments and maturities:

	Maturities	Maturities Fair Valu	
Pooled Investments:			
State of Nevada Local Government Investment Pool (LGIP)	125 days*	\$	9,890,381
*Represents average weighted maturity			

Henderson Libraries categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The fair value measurement level within the hierachy is based on the lowest level of any input that is deemed significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

At June 30, 2022, Henderson Libraries' Level 1 investments were valued based on quoted market prices provided by recognized broker dealers and its Level 2 investments were valued, by recognized broker dealers, based on a matrix pricing model that maximizes the use of observable inputs for similar securities.

Henderson Libraries has the following recurring fair value measurements as of June 30, 2022:

	Level 1 Inputs		Lev	vel 2 Inputs	Total Investment	
Investments by fair value measurement						
State of Nevada Local Government Investment Pool (LGIP)	\$	2,923,597	\$	6,966,784	\$	9,890,381

Interest Rate Risk

Interest rate risk is the risk of possible reduction in the value of a security, especially a bond, resulting from a rise in interest rates. Henderson Libraries does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates beyond those specified in the statutes.

Credit Risk

Generally, credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation and is a function of the credit quality rating of investments. The LGIP is an unrated external investment pool and as noted above, Henderson Libraries has no formal investment policy that specifies minimum acceptable credit ratings.

NOTE 4 – Interfund Activity

Interfund transfers for the year ended June 30, 2022 consisted of one \$3,000,000 transfer from the General Fund to the Capital Construction Fund. This transfer was made to move unrestricted revenues collected in the General Fund to finance capital improvements in accordance with budgetary authorization.

NOTE 5 – Capital Assets

The following schedule summarizes the changes in capital assets for the year ended June 30, 2022:

Capital assets, not being depreciated: \$ 1,406,051 \$ - \$ - \$ 1,406,051 Total capital assets, not being depreciated 1,406,051 - - - 1,406,051 Capital assets, being depreciated: - - - 1,406,051 Buildings 18,492,813 193,003 - 18,685,816 Furniture and equipment 1,387,538 139,544 (40,558) 1,486,524 Right-to-use leased equipment 68,733 809,853 - 878,586 Land improvements 599,912 - - 10,450 - 10,450 Leasehold improvements - 10,450 - 10,450 - 139,247 Total capital assets, being depreciated 27,57,523 2,167,373 (1,237,500) 28,517,360 Less accumulated depreciation for: - - 139,247 Buildings (8,640,381) (622,860) - (9,263,241) Furniture and equipment (791,093) (93,268) 40,558 (8	Governmental Activities:	Balance June 30, 2021 (restated)	<u>Additions</u>	<u>Deletions</u>	Balance June 30, 2022

Net pension liability		6,941,544		-	 (2,288,123)		4,653,421		-
Total Long-Term Liabilities	\$	10,502,541	\$	1,694,739	\$ (2,919,395)	\$	9,277,885	\$	784,759

Compensated absences, other post employment benefits and termination benefits payable typically have been liquidated by the General Fund.

NOTE 7 – Leases

Lease receivable - During the current fiscal year, Henderson Libraries renewed a lease for five hundred sixteen (516) square feet in the Paseo Verde Library to a third party. The lease is for two years with monthly lease payments of \$516.00. Henderson Libraries recognized \$3,009 in lease revenue and \$87 in interest revenue during the current fiscal year related to this lease. As of June 30, 2022, Henderson Libraries' receivable for lease payments was \$21,323. Also, Henderson Libraries has a deferred inflow of resources associated with this lease that will be recognized as revenue over the lease term. As of June 30, 2022, the balance of the deferred inflow of resources was \$21,290.

Lease payable - During the current fiscal year, Henderson Libraries entered into a five-year lease agreement as lessee for a 3,500 square foot building to house the West Henderson Library. An initial lease liability was recorded in the amount of \$809,853 during the current fiscal year. As of June 30, 2022, the value of this lease liability was \$790,128. Henderson Libraries is required to make monthly principal and interest payments of \$13,300. The lease has an interest rate of 1%. Henderson Libraries does not anticipate extending this lease at the end of the lease term. The value of the right-to-use asset as of the end of the current fiscal year was \$809,853 and had accumulated amortization of \$26,545.

Henderson Libraries also has existing lease agreements for copier equipment. As of June 30, 2022, the value of these lease liabilities was \$48,296. Henderson Libraries is required to make monthly principal and interest payment of \$1,371 for these leases. These leases have interest rates varying from 7.42% to 8.47% and remaining terms of 3-4 years. Henderson Libraries does not anticipate extending these leases at the end of the lease terms. The value of these right-to-use assets as of the end of the current fiscal year was \$68,733 and had accumulated amortization of \$22,253.

Fiscal Year Ending June 30,	Principal		Interest		Total	
2023	\$	166,091	\$	10,890	\$	176,981
2024		171,881		7,780		179,661
2025	176,141			5,109		181,250
2025		174,349		2,559		176,908
2027		149,962		719		150,681
Totals	\$	838,424	\$	27,057	\$	865,481

The future principal and interest lease payments on all leases as of June 30, 2022, were as follows:

NOTE 8 – Multiple-Employer Cost-Sharing Defined Benefit Pension Plan

Henderson Libraries employees are covered by the Public Employees Retirement System of Nevada (PERS), which was established by the Nevada Legislature in 1947, effective July 1, 1948, and is governed by the Public Employees Retirement Board (the PERS Board) whose seven members are appointed by the governor. Henderson Libraries does not excercise any control over PERS. NRS 286.110 states that "The respective participating public employers are not liable for any obligations of the system."

Plan Description

PERS is a cost sharing, multiple-employer, defined benefit public employees' retirement system which includes both regular and police/fire members. PERS is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability.

Benefits Provided

Benefits, as required by NRS, are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the system on or after January 1, 2010 and July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed as 2.50% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this factor is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.50% service time factor and for regular members entering the System on or after July 1, 2015, there is a 2.25% factor. PERS offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death. Post-retirement increases are provided by authority of NRS 286.575 - .579.

<u>Vesting</u>

Regular members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with 5 years of service, at age 60 with 10 years of service, or at any age with 30 years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with 5 years of service, at age 62 with 10 years of service, or at any age with 30 years of service. Regular members entering the System on or after July 1, 2015, are eligible for retirement at age 65 with 5 years of service, at age 62 with 10 years of service, or at any age with 30 years of service. Regular members entering the System on or after July 1, 2015, are eligible for retirement at age 65 with 5 years of service, at age 62 with 10 years of service, at age 55 with 30 years of service, or at any age with 33 1/3 years of service.

Police/fire members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with 5 years of service, at age 55 with 10 years of service, at age 50 with 20 years of service, or at any age with 25 years of service. Police/fire members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with 5 years of service, at age 60 with 10 years of service, at age 50 with 20 years of service, at age 50 with 20 years of service, or at any age with 30 years of service. Only service performed in a position as a police officer or firefighter may be counted toward the eligibility for retirement as police/fire accredited service.

The normal ceiling limitation on the monthly benefit allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both regular and police/fire members become fully vested as to benefits upon completion of five years of service.

Contributions

The authority for establishing and amending the obligation to make contributions, and member contribution rates is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. In one plan, contributions are shared equally by employer and employee. In the other plan, employees can take a reduced salary and have contributions made by the employer (EPC). Henderson Libraries is an employee-choice agency.

PERS's basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

PERS receives an actuarial valuation on an annual basis for determining the prospective funding contribution rates required to fund the system on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by NRS. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuarial funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contributions requirement as a percentage of salary.

For the fiscal year ended June 30, 2021, the statutory Employer/Employee matching rate was 15.25% for regular and 22.00% for police/fire members. The Employer-Pay contribution (EPC) was 29.25% for regular and 42.50% for police/fire members.

Investment Policy

PERS's policies which determine the investment portfolio target asset allocation are established by the PERS Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of PERS. The following target asset allocation policy was adopted as of June 30, 2021:

		Long-Term Geometric Expected Real Rate of
Asset Class	Target Allocation	Return*
U.S. stocks	42%	5.50%
International stocks	18%	5.50%
U.S. bonds	28%	0.75%
Private markets	12%	6.65%

*As of June 30, 2021, PERS' long-term inflation assumption was 2.50%

Net Pension Liability

PERS collective net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total PERS pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate Productivity pay increase	2.50% 0.50%
Projected salary increases	Regular: 4.20% to 9.10%, depending on service
	Police/Fire: 4.60% to 14.50%, depending on service Rates include inflation and productivity increases
Investment rate of return	7.25%
Other assumptions	Same as those used in the June 30, 2021 funding actuarial valuation

Actuarial assumptions used in the June 30, 2021 valuation were based on the results of the experience study for the period July 1, 2016 through June 30, 2020.

The discounted rate used to measure the total pension liability was 7.25% as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed plan contributions will be made in amounts consistant with statutory provisons and recognizing the plan's current funding policy and cost-sharing mechanism between employers and members. For this purpose, all contributions that are intended to fund benefits for all plan members and their beneficiaries are included, except that projected contibutions that are intended.

Based on those assumptions, the pension plan's fiduciary net position at June 30, 2021, was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2021.

Henderson Libraries' proportionate share of the net pension liability at June 30, 2021, calculated using the discount rate of 7.25%, as well as what Henderson Libraries' proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower (6.25%) or 1% higher (8.25%) than the current discount rate was as follows:

	1% Decrease in		1% Increase in	
_	Discount Rate	Discount Rate	Discount Rate	
Net Pension Liability	\$9,265,123	\$4,653,421	\$849,429	

Detailed information about PERS fiduciary net position is available in the PERS Annual Financial Report, available on the PERS website, www.nvpers.org under publications. PERS fiduciary net position and additions to/deductions from have been determined on the same basis used in the PERS Annual Financial Report. PERS financial statements are prepared in accordance with accounting principles generally accepted in the United States of America applicable to governmental accounting for fiduciary funds. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Henderson Libraries' proportionate share (amount) of the collective net pension liability was \$4,653,421, which represents 0.05103% of the collective net pension liability. Contributions for employer pay dates within the fiscal year ending June 30, 2021, were used as the basis for determining each employer's proportionate share. Each employer's proportion of the net pension liability is based on their combined employer and member contributions relative to the total combined employer and member contributions for all employers for the period ended June 30, 2021.

For the period ended June 30, 2022, Henderson Libraries' pension expense was \$1,023 and its reported deferred outflows and inflows of resources related to pensions as of June 30, 2022, were as follows:

	 red Outflows Resources	Deferred Inflows of Resources		
Differences between expected and actual experience	\$ 515,458	\$	32,749	
Changes in assumptions	1,545,016		-	
Net difference between projected and actual earnings on investments	-		3,797,043	
Changes in proportion and differences between actual contributions and proportionate share of contributions	305,811		86,054	
Contributions made subsequent to the measurement date	575,607			

At June 30, 2021, the average expected remaining service life is 6.14 years.

Deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date totaling \$575,607 will be recognized as a reduction of the net pension liability in the year ending June 30, 2023. Other amounts reported as deferred outflows and inflows of resources will be recognized in pension expense as follows:

Year Ending June 30,	Outflows (Inflows) Resources
2023	\$ (462,894)
2024	(455,310)
2025	(472,297)
2026	(506,215)
2027	304,571
Thereafter	42,584

Changes in the District's net pension liability were as follows:

Net pension liability, beginning of year	\$ 6,941,544
Pension expense	1,021
Employer contibutions	(534,095)
Net new deferred inflows and outflows of resources	 (1,755,049)
Net pension liability, end of year	\$ 4,653,421

At June 30, 2022, \$127,275 is payable to PERS for the June 2022 required contribution and is included in accounts payable.

NOTE 9 – Postemployment Benefits Other Than Pensions (OPEB)

General Information about the Postmeployment Benefits Other Then Pension (OPEB)

Plan Description - The Retiree Health Program Plan (RHPP) is a non-trust, single-employer defined benefit postemployment healthcare plan administered by Clark County, Nevada. Retirees may choose between the Clark County Self-Funded Group Medical and Dental Benefits Plan (PPO) and an exclusive provider organization (EPO) plan.

Financial information on these plans may be found in the Clark County annual financial report as an internal service fund (the Self-Funded Group Insurance Fund). This report is available at <u>http://www.clarkcountynv.</u> government/departments/finance/financial_reporting/comptroller/CAFR.php.

Plan Description - Henderson Libraries subsidizes eligible retirees' contributions to the Public Employee Benefit Program (PEBP), a non-trust multiple-employer defined benefit postemployment healthcare plan administered by the State of Nevada. NRS 287-041 assigns the authority to establish and amend benefit provision to the PEBP nine-member board of trustees. The plan is now closed to future retirees, however, Henderson Libraries employees who previously met the eligibility requirement within the Nevada Public Employee Retirement System had the option upon retirement to enroll in coverage under PEBP with a subsidy provided by Henderson Libraries as determined by their number of years of services.

The PEBP issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by writing to Public Employee's Benefits Program, 901 S. Stewart Street, Suite 1001, Carson City, NV, 89701, by calling (775) 684-7000, or by accessing the website at www.pebp.state.nv.us/informed/financial.htm.

Benefits Provided

RHPP provides medical, dental, prescription drug, and life insurance coverage to eligible active and retired employees and beneficiaries. Benefit provisions are established and amended through negotiations between Henderson Libraries and Clark County.

PEBP plan provides medical, dental, prescription drug, Medicare Part B, and life insurance coverage to eligible retirees and their spouses. Benefits are provided through a third-party insurer.

Employees Covered by Benefit Terms

At June 30, 2022, the following employees were covered by the benefit terms:

RHPP	PEBP	Total all Plans
5	6	11
55	-	55
60	6	66
	5	5 6 55 -

As of September 1, 2008, PEPB was closed to any new participants.

Total OPEB Liability

Henderson Libraries's total OPEB liability of \$2,859,375 was measured as of June 30, 2021 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and other inputs: The total OPEB liability for all plans as of June 30, 2022 was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate	2.16%
Pre-Medicare Trend Rate	Select:6.75%, Ultimate 4.0%
Post-Medicare Trend Rate	Select:5.75%, Ultimate 4.0%
Mortality Table	Pub-2010 headcount weighted mortality table, projected generationally using Scale MP-2020, gender-specific
Termination Tables	2020 NPERS Actuarial Valuation
Retirement Tables	2020 NPERS Actuarial Valuation

Rational for Assumptions:

The demographic assumptions are based on the Nevada PERS Actuarial Experience Study for the period from July 1, 2012 through June 30, 2016. Salary scale and inflation assumptions are based on the Nevada PERS Actuarial Experience Study for the period from July 1, 2012 through June 30, 2016.

Sensitivity of the net OPEB liability to changes in the dicount rate - The following presents the net OPEB liability of Henderson Libraries, as well as what Henderson Libraries's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.16%) or 1-percentage-point higher (3.16%) than the current discount rate:

	19	1% Decrease		Discount Rate		% Increase
Net OPEB Liability - PEBP	\$	141,0000	\$	122,750	\$	108,000
Net OPEB Liability - RHPP		3,316,000		2,736,625		2,286,000

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates - The following presents the net OPEB liability of Henderson Libraries, as well as what Henderson Libraries' net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	1%	1% Decrease		Discount Rate		1% Increase	
Net OPEB Liability - PEBP	\$	109,000	\$	122,750	\$	140,000	
Net OPEB Liability - RHPP		2,285,000		2,736,625		3,312,000	

OPEB Expense and Deferred Outflows and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2022, Henderson Libraries recognized OPEB expenses for RHPP of \$48,907 and for PEBP of \$5,190.

At June 30, 2022, Henderson Libraries reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

<u>PEBP</u>

RHPP	Defe	rred Outflows of Resources	Deferred Inflows of Resources		
Changes of assumption	\$	140,311	\$	471,908	
Differences between expected and actual experience		-		1,115,778	
Total RHPP	\$	140,311	\$	1,587,686	
<u>PEBP</u> Contributions made in fiscal year ending 2022 after July 1, 2021 measurement date Total PEBP	\$ \$	6,283 6,283	\$	-	

The amount \$6,283 reported as deferred inflows of resources related to OPEB resulting from Henderson LIbraries contributions subsequent to the measurement date will be recognized as a reduction of the OPEB liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in the OPEB expense as follows:

Year Ending June 30,	utflows (Inflows) Resources
2023	\$ (173,710)
2024	(173,710)
2025	(173,710)
2026	(173,710)
2027	(172,886)
Thereafter	(579 <i>,</i> 649)

Combined Balances for OPEB Plans

The combined balances for both plans as of and for the year ended June 30, 2022 are as follows:

	RHPP	PEBP	Combined
Net OPEB Liability	\$ 2,736,625	\$ 122,750	\$ 2,859,375
Deferred Outflows	140,311	6,283	146,594
Deferred Inflows	1,587,686	-	1,587,686
OPEB Expense	48,907	5,190	54,097

NOTE 10 – Risk Management

Henderson Libraries is exposed to various risks of loss related to theft of, damage to, and destruction of assets, errors and omissions. Henderson Libraries participates in Clark County, Nevada's insurance program to provide health insurance coverage for its employees. Henderson Libraries carries insurance policies for liability, fire, theft, auto, inland marine, workers compensation and Directors and Officers coverage. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 11 – Contracts

Henderson Libraries continued the interlocal agreement with the City of Henderson (the City) whereby the City provides for assistance in updating or revising the Henderson Libraries master plan and allows the Henderson Libraries to provide library services at facilities owned or operated by the City. In addition, this agreement provides for the appointment of two members of the Board of Trustees by the Henderson City Council. The original term of the interlocal agreement was six years, ending on June 30, 2007. This agreement was renegotiated for another six years effective July 1, 2007, July 1, 2013 and June 1, 2019. The current agreement will terminate on June 30, 2025 unless renewed for an additional six years by mutual agreement of both parties.

Henderson Libraries continued leasing 4.36 acres of land from the City of Henderson, upon which the Paseo Verde Library is located. This lease is for a period of 50 years, commencing May 16, 2000. The leased land is provided to Henderson Libraries at the nominal sum of \$1 per year in exchange for other considerations, such as payment of all utilities and janitorial services. This lease is renewable for an additional period of 48 years, unless cancelled by Henderson Libraries.

NOTE 12 – Restatement Adjustment

Net position as of July 1, 2021 has been restated as follows for the implementation of GASB Statement No. 87, *Leases.*

	Governmental Activities		
Restatement adjustment:			
Leased assets	\$	60,226	
Lease liability		(60,621)	
Total restatement adjustment	\$	(395)	

REQUIRED SUPPLEMENTARY INFORMATION section

Henderson Libraries held a community read beginning June 1, 2022. One Book, One Henderson brought the community together to read *The Island* of *Sea Women* by Lisa See. This community read would culminate with a virtual author visit.

HENDERSON DISTRICT PUBLIC LIBRARIES NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED JUNE 30, 2022

NOTE 1 – Multiple-Employer, Cost-Sharing Defined Pension Plan

Certian key assumptions were changed as part of the actuary's updated study. Thoses changes are summarize below:

- 1. The inflation rate was updated from 2.75% to 2.50%
- 2. The projected salary increases rate was updated from 4.25% to 9.15% to 4.20% to 9.10%, depending on service.
- 3. The investment rate of return was updated from 7.50% to 7.25%

The actual valuation report dated June 30, 2014, was the first valuation of the multiple-employer costsharing defined benefit pension plan. As additional actuarial valuations are obtained, these schedules will ultimately present information from the ten most recent valuations.

Additional pension plan information can be found in Note 8 to the basic financial statements.

NOTE 2 – Other Post Employee Benefits

Certian key assumptions were changed as part of the actuary's updated study. Thoses changes are summarize below:

- 1. The discount rate was updated from 2.21% to 2.16% based on the municipal bond rate as of June 30, 2021.
- 2. The Pre-Medicare Trend Rate was decreased from 7.00% to 6.75%.
- 3. The Post-Medicare Trend Rate was decreased from 6.00% to 5.75%.

At June 30, 2022, no assets were accumulated in a qualifying trust in which the assets contributed and earnings thereon are irrevocable, dedicated solely to providing postemployment benefits and are legally protected from creditors.

Actuarial information for postemployment benefits other than pensions is not available for measurement years prior to the year ending June 30, 2017. As information becomes available this schedule will ultimately present information for the ten most recent fiscal years.

Additional information related to postemployment benefits other than pensions can be found in Note 9 to the basic financial statements.

This page left blank intentionally.

GOVERNMENTAL funds

MAJOR CAPITAL PROJECTS FUND

To account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the improvement, acquisition or construction of capital facilities and other capital assets.

NONMAJOR CONTRIBUTIONS AND GRANTS FUND

To account for and report donations and grants that are restricted, committed, or assigned to expenditure for specific purpose generally dictated by the donor or the grant award.

Henderson is one of the fastest growing cities in the country. In order to reach underserved areas of the community, Henderson Libraries developed a "Neighborhood Library" concept to get library services and programs where they are needed in a timely manner. The West Henderson Library began construction in early fiscal year 22 and construction continued into the summer. The neighborhood is thrilled to have library services close to home.

Notes:

¹ The decrease in the unassigned fund balance of the General Fund and the increase in the assigned fund balance of the Debt Service Fund was due to a transfer between the funds. The transfer was done in anticipation of the early payoff of the outstanding debt done in July 2014.

² The decrease in the assigned fund balance of the Debt Service Fund was due to the payoff of the outstanding debt done in July 2014.

³ The increase in the assigned fund balance of the Capital Construction Fund was due to the proceeds received from the sale of the Malcolm Library building. The proceeds were assigned for future capital improvements.

⁴ The increase in the assigned fund balance of the Capital Construction Fund was a transfer from the General Fund for future construction projects.

⁵ The increase in the assigned fund balance of the General Fund was due to an increase in the amount of fund balance assigned for next year operations. This budgeted increase was necessary to cover an anticipated shortfall in consolidated tax revenue due to the coronavirus pandemic, however, this shortfall never materialized sp the assignment were not used.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the library district. This schedule estimates the portion of outstanding debt of those overlapping governments that is borne by the residents and businesses of Henderson District Public Libraries. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying debt, of each overlapping government.

*The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the county's taxable assessed value that is within the government's boundaries and dividing it by the county's total taxable assessed value. The exception to this is the City of Henderson. The boundaries of Henderson District Public Libraries are contiguous with the City of Henderson, therefore the residents and businesses of Henderson District Public Libraries are responsible for the entire debt of the City of Henderson.

Note:

¹ HDPL reoganized the Green Valley Library during fiscal year 2021 to be a neighborhood library. Neighborhood libraries are smaller locations with reduced services and staffing. Remaining staff were allocated to the new Customer Care Department and a new neighborhood library in West Henderson. This new library is slated to open during fiscal year 2022. Staff allocated to this library are assisting in other libraries and performing outreach services until that opening.

Notes:

¹ Net book value represents total acquisition cost of circulating materials less depreciation to date.

² Turnover rate is the number of times an item is checked out. This is an average of publicly circulating items in the total collection.
³ The downturn in circulation numbers were due to library closures and restrictions due to the coronavirus pandemic. All libraries were closed on March 16, 2020 and remained closed to the public until February 28, 2021. Limited curbside services began on June 1, 2020. On March 1, 2021, the libraries reopened with limited services and capacity. Full capacity was restricted until June 1, 2021.

Notes:

¹ Remote Services includes e-books, remote deposit collections, downloadable materials, and the bookmobile. The remote deposit collections were available between fiscal year 2006 and fiscal year 2013.

² The Galleria Library and the Lydia Malcolm Library were closed in November 2012 due to lack of funding.

³ The downturn in circulation numbers were due to library closures and restrictions due to the coronavirus pandemic. All libraries were closed on March 16, 2020 and remained closed to the public until February 28, 2021. Limited curbside services began on June 1, 2020. On March 1, 2021, the libraries reopened with limited services and capacity. Full capacity was restricted until June 1, 2021.

¹ The Heritage Park Senior Facility Library is located in the Heritage Senior Facility as a joint partnership with the City of Henderson. The City owns the facility, while the District operates a library in a portion of the facility.

² Library services at the Lydia Malcolm Library were discontinued in November 2012. HDPL sold the building in February 2018.

³ The West Henderson Library building was leased in July 2021, however, construction issues delayed taking possession of the building until May 2022. The library opened to the public in July 2022.

Henderson Libraries team has shown tremendous perseverence moving forward when other organizations were paralyzed. The district continues to make progress on strategic initiatives and every employee plays a part. The team will start forecasting how to move forward to develop the plan for the next 5 years. Henderson Libraries success is a direct result of the team's enthusiasm, dedication, and true love of community.

HENDERSON DISTRICT PUBLIC LIBRARIES HENDERSON NEVADA

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Trustees Henderson District Public Libraries Henderson, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Henderson District Public Libraries (the District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 7, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on State Legal Compliance

To the Board of Trustees Henderson District Public Libraries Henderson, Nevada

We have audited the basic financial statements of Henderson District Public Libraries (the Ditrict), for the year ended June 30, 2022, and have issued our report thereon dated November 7, 2022. Our audit also included test work on the District's compliance with selected requirements identified in the State of Nevada Revised Statutes (NRS) including, but not limited to, NRS section 354.624 and section 354.6241.

The management of the District is responsible for the District's compliance with all requirements identified above. Our responsibility is to express an opinion on compliance with those requirements based on our audit and make specific statements regarding funds established and the status of prior year findings and recommendations; accordingly, we make the following statements:

The District has established a number of funds in accordance with NRS 354.624 as follows:

Funds whose balance is required to be used only for a specific purpose or carried forward to the succeeding fiscal year in any designated amount:

Capital project fund: Capital Construction Fund Debt Service Fund Special revenue fund: Contributions and Grants Fund

The District appears to be using the funds expressly for the purposes for which they were created and in accordance with NRS 354.624. The funds are being administered in accordance with Generally Accepted Accounting Principles and the reserves, as applicable, appear reasonable and necessary to carry out the purposes of the funds. Sources of revenues available and fund balances are reflected in the individual fund financial statements.

The statutory and regulatory requirements of the funds are as follows:

Capital Construction Fund	Board resolution, NRS 354.6113
Debt Service Fund	Board resolution
Contributions and Grant Fund	Board resolution

The District had no statutory compliance findings from fiscal year 2021. We noted no new instances of noncompliance during the fiscal year.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the District complied, in all material respects, with the requirements identified above for the year ended June 30, 2022.

The District has no funds to be reported pursuant to NRS 354.5989.

The purpose of this report is solely to describe the scope of testing of the applicable compliance requirements identified in the Nevada Revised Statues (NRS) and the results of that testing based on state requirements. Accordingly, this report is not suitable for any other purpose.
